Project Name	Smart Fashion Recommender Application

DEVELOPING A CHATBOT

The image displays two screenshots of the IBM Watson Assistant development interface, showing the configuration of a chatbot for a Smart Fashion Recommender Application.

Top Screenshot: This view shows the configuration for Step 5. The left sidebar lists conversation steps, with Step 5 highlighted. The main area shows the configuration for Step 5, which is titled "without conditions". The "Assistant says" section contains a prompt: "For example: Please select from the following options:". Below this, there is a "Choose an option" button. The "And then" section shows the action "Continue to next step". A preview window on the right shows the chatbot's response to the user input "hello".

Bottom Screenshot: This view shows the configuration for Step 7. The left sidebar lists conversation steps, with Step 7 highlighted. The main area shows the configuration for Step 7, which is titled "without conditions". The "Assistant says" section contains a prompt: "For example: What size do you want to order?". Below this, there is a "Define customer response" button. The "And then" section shows the action "Continue to next step". A preview window on the right shows the chatbot's response to the user input "greeting!".
